

**CORONADO
WEST** INC.

October 25, 2007

We hired Tim Nelson to create the inside of our 4,000 square foot office space from scratch. From the smallest items to the largest, he had every component covered.

Tim let us pick all of our custom interior fixtures: carpet, counters, tile, etc. then he went to work with measuring and making sure installations went smoothly with vendors.

Throughout the several months of work, his crew always kept a neat workspace, deadlines and budgets were met without any problems and best of all, Tim coordinated all necessary city and utility approvals and meetings.

We would gladly use Tim Nelson again and recommend him to anyone looking for improvements to their living or work space.

Sincerely,
Coronado West, Inc.
