To whom it might concern,

This letter is for the purposes of recognition for Tim Nelson Construction as a highly regarded partner in the construction business. As a granite fabricator it is very important for us to work with professionals that perform high quality work within the time frame that has been scheduled. It has been demonstrated on many occasions while working with clients of Tim's that the high level of service we have come to expect is provided on his jobs.

You may call me if you would like to discuss our relationship with Tim Nelson Construction.
